The Student Council, primarily a service organization, is a group of students selected by their fellow pupils to manage student affairs and to represent the student body at all times. Its main objectives are to develop good citizenship, to provide a means of co-operation between students and faculty, and to improve leadership, scholarship, and service among students. It defines the purposes, principles, and philosophy of student activities and serves to promote the general welfare of Arkansas High School.

Its activities include managing school assemblies, landscaping the school grounds, sponsoring Christmas programs for the needy, arranging special days, and managing the Good Sportsmanship Program.

The Americanism Club is an organization to promote a better understanding of our country and its role of leadership in today's world. The club's objectives are to learn about the mechanics of our government and its foreign policies, and to gain a basic understanding of Communist aims and means.

The club consists of interested students

who are taking or have had American history, and who maintain a "B" average and 90 honor points.

Throughout the year the programs consisted of speakers and films designed to further the members' awareness of the conflict between democracy and Communism and to show each individual what his responsibilities are.

In addition to his study in school each student is required to conduct a "supervised farming program" where he puts into actual practice the farming knowledge gained in the classroom. The teacher makes frequent visits to the boy's home farm, supervising and helping with the development of his program. Boys usually start as freshmen with small enterprises, such as a few pigs, a brood sow, some

calves, and an acre or two of crops. As they advance in their work, they are encouraged to expand their farming programs so that by the time they have completed high school they will have built up an investment in farming large enough to permit them to farm on a full-time basis, or, as is frequently the case, to permit them to enter upon a sound partner-ship agreement with their parents.

Get your facts first, and then you can distort em as you please. — Mark Twain

This is the philosophy we have used in assembling this PORKER annual. I hope the results meet with your approval.

The assistance of the sponsor, faculty, staff, and students has been a determining factor in making this annual possible.

We wish to take this opportunity to express our gratitude to all who have co-operated in gathering and assembling material for your 1963 PORKER.

Sincerely,

PORKER Editor

# Architectural Drawing Class

TONY SPIGNER Instructor

The boys pictured below were the boys we felt would benefit most by offering to them the advanced course, Architectural Drawing. These boys excelled in Mechanical drawing, which required many combinations of skills, including speed and accuracy and, above all, the ability to apply themselves to a difficult and tedious task. We know that Arkansas Senior High will give to our community and our country many worthwhile individuals. Within this group of boys, below, we strongly feel we will give to all some execuent Engineers. Architects, and Draftsmen.

#### "ASK THE MAN WHO HAS ONE"

Probably the best way to find out about a bank and its services is to ask the person who has a loan or deposit account.

We gladly refer you to the more than 17,500 depositors and 5,600 loan accounts on our books.

It has always been our purpose to "do for you anything a good bank should do." We're interested in you and your success. What can we do to help?
